

FastESM Platform Guide

2026-08-19 | <https://esm.fastsmc.com>

FastESM is an open-source **Enterprise Service Management (ESM)** platform built with — Python-first, server-side, HTMX-driven, no JavaScript framework. It takes the ITSM ticket/SLA model and extends it across **every department** (IT, HR, Facilities, Finance): a **service catalog** you browse like a webshop, **req**

Make every internal service simple to request and deliver.
